## Exploring the Buildings of Church Street Conservation Area, Hartlepool

Help us find out more about the history and development of the buildings in Church Street Conservation Area, Hartlepool.

**22<sup>nd</sup> to 26<sup>th</sup> October 2018**

As part of the Church Street Revival Townscape Heritage Scheme, this project will record the buildings within the conservation area.

The project will help you to look at buildings in a different way, understanding how they were built, the materials used, the features that make each building different and to see those details you may have walked past for years and never noticed.

We would like as many volunteers as possible and you will work as part of a team of people. Training will be provided and no previous knowledge or experience is required.
